1. Introduction and Background

Safaricom is a leading integrated communication services provider in Kenya and has a steadily growing subscriber base of subscribers and enterprise clients. The company is continuously expanding the network and upgrading existing capacities to meet the changing needs of its customers and is already rolling out 5G network services. To meet these growing needs and objectives, Safaricom continuously seeks to partner with competent suppliers and service providers for supply of various goods and services.

In line with its commitment to provide high availability of services to both internal and external customers, the company is in the process of engaging in sourcing map datasets including 3D maps that can be used in the radio network planning tool as well as other tools.

Safaricom PLC is therefore seeking Expressions of Interest (EOI) from qualified and reputable vendors of map datasets.

2. Aims and Objectives

The objective of this EOI (Expression of Interest) is for Safaricom to receive information from experienced providers on planning tool map datasets solution.

The requirement is for a dataset (Geo-Spatial) supplier covering a whole range of dataset resolutions as follows.

Country at 50m resolution, selected urban towns at 20m resolution with building 3D shape files and dense urban areas at 5m resolution as well as 3D building shape files.

3. The EOI Scope

This EOI is intended to identify reputable and qualified suppliers who will be able to deliver on the scope (but is not limited to) below:

Specifically, the solution should be able to:

1. Integrate with Radio network planning tools such as Atoll, Planet and Asset used by Safaricom RAN planning.
2. Ability to integrate in other planning tool such as Mapinfo and Pathloss.
3. Country wide maps split blocks should preferably be 2 but not exceed 4.

The full details of the scope of the RF Planning tool map data sets Solution will be provided in an RFP (Request for Proposal) that will be sent out to bidders shortlisted through this EOI process.
